PROFESSIONAL EXPERIENCE

Summary:

I have 6.6 years of experience in software development. I excel in developing real-time and scalable backend and frontend applications and am adaptable to working with various technologies.

1. Worked as **MEAN Stack Developer** in Federal Soft Systems Pvt. Ltd., Bangalore from 26-September-2022 to 26-September-2023.
2. Previously worked as **MEAN Stack Developer** in Webtree Designs Pvt. Ltd., Bangalore from 9-April-2018 to 23-September-2022.
3. Worked as a **Full Stack Developer** in Provab Technosoft Pvt. Ltd., Bangalore from 27-03-2017 to 2-April-2018.

SKILLS SET

- Skills: **NodeJS**, Javascript, NextJS, GitHub, AWS Basics, HTML5, CSS3, Bootstrap.
- Framework: **ExpressJs**, **Angular** (v11, 12)
- Database: **MongoDB**, MySQL.
- Web services: **REST API**, Web socket.
- Payment gateway: Razor Pay, PayPal, Stripe and SMS Gateway integration.

PROJECTS

Project 1: 1HourDeveloper

Role: MEAN Stack Developer

Description: 1HourDeveloper is an online freelancing platform that provides hourly-based work opportunities for developers. My responsibilities includes complete backend

functionality, including a payment gateway, video call integration, Firebase, email notifications, and Swagger API documentation, as well as some frontend modules. The technologies used in this project include Next.js, MongoDB, Swagger, Firebase, and the OpenVidu video call platform

Project 2: SameBoat App (Social Media Platform)

Role: NodeJS Backend Developer

Description: Collaborated on the development of the Sameboat mobile application, an Android and iOS app. My primary responsibility was the complete backend development, utilizing technologies such as Node.js, Express.js, and MongoDB for the database and Socket.io for real-time communication for chatting. I integrated email templates using MailJet, employed the Firebase Admin SDK for push notifications, and ensured efficient API documentation with Swagger and RabbitMQ for background processes.

Project 3: MisbaHolidays (Flight, Hotel and Package Booking System)

Role: Full Stack Developer

Description: MisbaHolidays is a Central Reservation System (CRS) for travel bookings. The application includes modules for Flight Booking, Hotel Reservations, Bus Bookings, and Holiday Packages. We used the Travelomatix web service API for flight bookings. The frontend technologies Angular and backend Node.js, Express.js, and the MongoDB

Other Projects: BinFaqeeh real estate website, GoFit App and more projects.

EDUCATION

- **MTech** (Computer Science) in BLDEA's PGCET College | VTU University | 2016
- **Bachelor of Engineering** (CSE) in BLDEA's PGCET Vijayapur | VTU University | 2013
- **Diploma** in CSE in BLDEA's Polytechnic Vijayapur | BTE Board | 2010
